## City Children May Get Free **Polio Injections**

The Circleville health clinic, sponsored by the local Parent-Teachers Association, has worked out a plan whereby children attending Circleville City Schools are offered free polio shots.

Every pupil will take a permission slip home today with instructions to return the slip to the school by Friday with parents' signatures. The program is being rushed because the free offer of polio serum soon expires.

Free shots are scheduled to be given in practically every school in Ohio. At Circleville, the free shots are being offered to every pupil from kindergarten through grade twelve.

With parents' written permisbooster shots can be given free. To be able to give the second shots, or the booster shots, parents are asked to give the approxto their children.

IF TWO to four weeks have elapsed since the first shot was given, children are eligible for second shot the booster shot should be taken.

In most counties the shots are given by the Public Health Departments in schools. Since local City Schools lack the services of a health department for such projects, the doctors and nurses of the city are donating their time to bring about this free service. Local health officials fell that the project will be worth all the effort expanded if it prevents even one case of Polio in Circleville this p. m.

Did the United Nations impose economic sanctions against India for its imperialism and its rejection of United Nations resolutions? Not at all! The United Nations is silent about Kashmir, And the State Department is silent about Kashmir

And the State Department takes its policy from Chester Bowles, the erstwhile huckster who was sent to India to make the United States popular there by word and by giveaway, but who instead has become Nehru's supplementary emissary to the United States. Amazingly, he has not been restored to ambassadorial rank.

It is only against Israel that the United Nations and the State Department seek to impose sanctions perhaps as a challenge to discover whether manna will truly drop from Heaven when the Israeli have nothing to eat but the sand of the Sinai Desert. It does not pay to be small and not to have oil wells and not to have blackmail powers in this current, pragmatic era.
